

NATIONAL PARK BERCHTESGADEN: WHAT TO EXPLORE

Explore. Dream. Discover.

1. Königssee and Obersee: you can reach the tiny Obersee lake by boat or by hiking along the Königssee lake (9 km one way).
2. Admire the stunning Watzmann. You can even climb it, but only if you have appropriate skills, abilities and gear, as the ascent is quite demanding. The overall elevation gain is 2359 m (per 13 km).
3. Visit the small church Maria Gern to breathe in the mountains and valley.
4. Hike a short yet picturesque circular trail Malerwinkelrundweg in order to see Königssee from different angles and even framed by trees (3.3 km with an elevation gain of 185 m).
5. Take a walk in the calm and quiet Ramsau bei Berchtesgaden.
6. Visit 'Eagle's Nest'. You can either take a special tourist bus to get there or hike up from a parking. The elevation gain is 908 m per 7 km. Personally, I prefer the views on Königssee from Maria Gern and Malerwinkelrundweg.
7. Along the Königsseeer Ache river strolls a beautiful trail called Rupertweg. It is really easy, but, thanks to the clean green waters of the river, remains to be one of the places worth seeing.

All the trails and places mentioned are added to the map

<https://en.mapy.cz/s/detusarolu>

These routes are a tiny bit in the overall number of hiking trails in the region, but, in my opinion, they're an absolute 'must' if you want to get to know the Berchtesgaden National Park.
